ALBARIUM KRAFTIZEN COLLECTION

This off-white color features transparencies and color gradations typical of Roman stuccoes that imitated white marble. Although it has a mate finish, depending on the incidence of light, reflections and shine that simulate marble dust can be seen.

RADIUM **INDUSTRIAL COLLECTION**

This gorgeous, stand-out stone is one to be admired - a deep black background with inky marbling throughout yields a dramatic and moody tone.

TRILIUM **INDUSTRIAL COLLECTION**

Dekton Trilium offers a mixture of colors inspired by volcanic stones and intense gray and black touches. Created with up to 80% recycled material, Trilium was born in 2016 becoming the first ecological color of Dekton.

SALINE **SILVERKOAST COLLECTION**

Salina (polished) is inspired by the whimsical salt patterns that low tide leaves on the sand and rocks. These delicate white ridges are materialized in an asymmetrical pattern of gray veins on a white base that reinterprets the classic elegance of Carrara marble.

MALIBU **SILVERKOAST COLLECTION**

Malibu (polished) is inspired by the white sand, the mesmerizing reflections of the sun and the waves breaking on the shores of California that are rendered in subtle and delicate veins on an ivory white background.

AWAKE **NATURAL COLLECTION**

A reinterpretation of the iconic attributes of the precious Paonazzo stone. Thick veining with gradients of light grays, and creams, with luscious rusty terracotta and subtle inky blues.

TRANCE **NATURAL COLLECTION**

Fluid color with a bluish veil. The background reveals a combination of cream and gray colors, a mix of tones that blend between white palettes. Fine streaks move between oxides and fade to reddish gold.

REM **NATURAL COLLECTION**

Rem is inspired by one of the most elegant white marbles on the market: its intricate design, with brown and grey veining and hints of gold, reflects the traditional and almost linear structure of Calacatta Lincoln itself.

NEURAL **ONIRIKA COLLECTION**

A light cream-toned base with fine, pale veins that run through the marbling, creating a fascinating neural network that moves in the same direction.
